

DANGER!

Sheriff Jesus Romero evidently aspires to be the Republican boss of Albuquerque.

For ten days he has been making a house to house canvas, alleging mismanagement of our city affairs.

It is intimated if Boatright and the reform council is elected he will have the naming of all the employes of the police and fire departments.

The situation is dangerous.

Jesus Romero is not a citizen of Albuquerque.

The citizens of Albuquerque will not permit Jesus Romero to control their city affairs.

Your only salvation is to vote for Sellers and the other Democratic nominees.

So the People May Know

There will be collected this year over \$60,000 through saloon and other licenses to help pay our city government expenses---not one cent of this amount is collected from the segregated women.

The city tax rate is now 15.32 mills, a reduction of 2.59 mills from last year.

Close the saloons and your city taxes will be increased to over 31 mills, or nearly double what you are now paying.

The reformers pay very little taxes so they don't care, but can you, Mr. Property Owner, or Business Man, afford it?

If not, vote for Sellers and the other Democratic nominees.

have done lots of damage to fruit and the crop will be a very short one, entailing a considerable loss to the growers.

The angora goat shearing season is on in the angora ranches surrounding this town and Lake Valley. The clip promises to be the largest on record.

PLENTY OF WATER FOR THE MAXWELL IRRIGATION PROJECT

(Special Correspondence to the Herald) Maxwell, N. M., March 28.—This looks like a very prosperous year for farmers on the Maxwell Irrigated Land company's project. The main canals are running full and there is more water in the storage lakes than ever before at this season. An abundance of water for all season irrigation is assured.

Spring plowing is in full swing. Spring wheat looks better every day and a first class crop is assured. Alfalfa is showing green and in sheltered places is getting a good start. Maxwell is shipping hay in carload lots, due to the demand for the home grown article earlier in the year and the increase in feeding and dairying hereabouts.

Beginning the first Sunday in April all stores in Maxwell will be closed on Sunday. The first store opened here contained the postoffice, and the habit of keeping open stores Sunday morning so the people could get their mail, was followed as other stores were opened. Now all stores must close all day on the Sabbath.

HILL RE-ELECTED TO ROSWELL SCHOOLS

(Special Correspondence to the Herald) Roswell, N. M., March 28.—W. O. Hill has been re-elected superintendent of the Roswell city schools by the unanimous vote of the city school board.

The election this time was for a period of three years, next year the salary to be at present, \$2,400. The year 1915-16 he is to receive ten per cent increase, and the following year a similar raise. The re-election meets with the hearty approval of the people of Roswell and is a distinct recognition of his splendid services in the first year of his superintendency.

The only other matter of business transacted last night was the granting of the privilege to Superintendent Hill to teach in the summer normal here this year. This was recommended by County Superintendent C. C. Hill and the board felt that his experience with teachers in the past would make his services in the normal almost indispensable.

Men Welcome Mother's Friend

A Duty that Every Man Owe to Those who Perpetrate the Race.

It is just as important that men should know of progressive methods in advance of motherhood. The suffering, pain and distress incident to child-bearing can be easily avoided by having at hand a bottle of Mother's Friend.

This is a wonderful, penetrating, external application that relieves all tension upon the muscles and enables them to expand without the painful strain upon the ligaments. Thus there is avoided all those nervous spells, the tendency to nausea or morning sickness is counteracted, and a bright, sunny, happy disposition is preserved that reflects wonderfully upon the character and temperament of the little one soon to open its eyes in bewilderment at the joy of its arrival. You can obtain a bottle of Mother's Friend at any drug store at \$1.00, and it will be the best dollar's worth you ever obtained. It preserves the mother's health, enables her to make a quick and complete recovery, and thus with renewed strength she will eagerly devote herself to the care and attention which mean so much to the welfare of the child.

Write to the Bradford Regulator Co., 129 Lamar Bldg., Atlanta, Ga., for their valuable and instructive book of guidance for expectant mothers. Get a bottle of Mother's Friend today.

proval of the people of Roswell and is a distinct recognition of his splendid services in the first year of his superintendency.

ROBBER MAKES RICH HAUL AT ROSWELL

Thousand Dollars Worth of Sample Knives and Cutlery, Stolen from Home of Traveling Salesman.

(Special Correspondence to the Herald) Roswell, N. M., March 29.—Several robberies have been committed the past three months within the city, but only a few dollars were gotten by the robbers. But Friday night the thieves and robbers took a new turn in their actions, and got over a thousand dollars' worth of stuff from H. C. Eggleston, 309 North Michigan avenue, who travels out of Roswell for the Keen Kutter people of St. Louis.

The robbers knew what they were about and planned a night when the people would be away from home—not only the Egglestons, but the whole neighborhood. It was the night of the prize fight, the ward primaries, and while the men folks were away from home the lady members of the families would be at the picture shows. The plan worked, too.

Mr. Eggleston had two "drammer's" sample trunk and his sample case in his barn. They were filled with 200 knives that would wholesale at \$12 to \$22 a dozen, besides case knives and forks and razors, etc. The robbers (it is thought that there must have been more than two) broke into the barn, took the trunks some three blocks away, and with a rock smashed a hole in the trunk and carried off the valuables. The haul is more than \$1,000.

The trunks and the suit case are ruined.

The sheriff's force and the police forces were on the trail a few minutes after the discovery of the robbery, and are on a hot clue.

Yesterday some of the case knives were found. Some were under a bridge and some had been stored in the old ice plant in the west end of town. These were found by some kids that were prowling around.

ALBUQUERQUE MEN STAKING OIL CLAIMS AROUND FARMINGTON

Farmington, N. M., March 31.—The time limit on hundreds of oil locations in the Meadows district, where oil was struck a little over a year ago, expired the first of this month and it is reported that Santa Fe and Albuquerque parties have quietly restaked these expired claims. The San Juan Basin Oil company, which has a fine big rig on its land west of the first oil strike, is said to be almost ready to resume drilling operations. A water well was drilled some time ago and enough work done to hold the company's claims. The staking of the old claims is taken to mean that actual drilling operations will start before long.

INTERESTING WORK BY GRANT COUNTY PHYSICIANS

Program for County Medical Institute this Year Contains Subjects of Wide Interest

(Special Correspondence to the Herald) Silver City, N. M., March 30.—The program of the Grant County Medical society for this year contains subjects of more than usual interest and it is not likely that a similar society, outside of medical centers, can match the papers either for excellence or literary style. The meetings of the society are held on the last Friday of each month and alternate between the Chamber of Commerce building, Silver City and Fort Bayard. On account of the large number of physicians engaged in the special study of tuberculosis, papers on this subject predominate.

Following are some of the papers to be presented at meetings of the society:

"The Diagnosis of the Age of the Lesions of Pulmonary Tuberculosis," Col. George E. Bushnell, Fort Bayard.

"X-Ray in Tuberculosis," Captain J. O. Walkup, Fort Bayard.

"Blood Vessel Surgery," Captain R. C. Lovins, Fort Bayard.

"Tuberculosis," in two papers, Dr. David C. Twichell, associate physician, New Mexico Cottage sanatorium, Silver City.

"Pain in Pulmonary Tuberculosis, Especially Thoracic Pain," Dr. Marietta, Fort Bayard.

"Alumina Sputum in Tuberculosis," Captain Callender, Fort Bayard.

"Composition of the Proteid Molecule-Synthesis," second paper, Dr. Earl Sprague Bullock, physician-in-chief New Mexico Cottage sanatorium, Silver City.

"Typhus Fever," Dr. L. D. Lowry, county health officer, Silver City.

"Arnett's Method in Tuberculosis," Captain Holmberg, Fort Bayard.

"Apical Lesions in Tuberculosis," Captain Bruns, Fort Bayard.

"Army Hygiene," Dr. S. A. Milliken, surgeon general, National guard of New Mexico, Silver City.

"Eye, Ear, Nose and Throat," Dr. G. K. Angie, Silver City.

"Blood Pressure in Tuberculosis, Phases of the Subject," Drs. Scott and Boyd, Fort Bayard.

"Primary Dementia," Dr. W. MacLure, Silver City.

The officers of the society are: President, Dr. W. MacLure, vice president, Dr. Earl Sprague Bullock, secretary-treasurer, Dr. L. D. Lowry, delegates to the State society, Dr. O. T. Hyde, medical director St. Joseph's sanatorium, Captain Earl H. Bruns, M. C. U. S. A.

When baby suffers with croup, croup and give Dr. Thomas' Electric Oil at once. Safe for children. A little goes a long way. 25c and 50c. At all drug stores.

BANK OF DAYTON WILL BE MOVED TO ARTESIA AT ONCE

(Special Correspondence to the Herald) Artesia, N. M., March 28.—Announcement was made this week that the Bank of Dayton, one of the leading institutions of Dayton would move to Artesia as soon as suitable office arrangements could be made.

Coming as it did so soon after the consolidation of the Bank of Artesia with the First National Bank of this city the announcement caused considerable surprise among the financiers of Artesia and this part of the valley.

The bank of Dayton has been established about nine years and has always had a good share of the business of the valley. It has a capital stock of \$15,000 fully paid and is officered by some of the best business men of the valley.

Although Artesia and vicinity was visited by a wind and sand storm Wednesday night that made people keep to the inside of their houses, there was very little damage reported, beyond the blowing away of a few loose articles. The most serious damage done by the storm was the wrecking of a barn belonging to J. McC. Heflin on the Penasco. The barn was constructed of sheet iron and was wrecked beyond repair. The loss amounts to about \$200.

The first dust spray to be used in the vicinity of Artesia was received this week by E. L. Allen. The spray is manufactured by the Dust Spray Manufacturing company of Kansas City. It is claimed that trees can be sprayed much cheaper by the use of this machine than by the liquid machine as less amount of lead is used and more efficient.

Artesia of lead costs about ten cents per pound, while chloride of lime which takes its place costs only about three cents per pound. It is expected that a number of machines will be sold around Artesia within the next year.

SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years' Standing, Relieved by Cardui.

Mr. Alry, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell."

I tried most every kind of medicine, but none did me any good.

I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it.

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, dizziness, sleeplessness, and that everlastingly tired feeling?

If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Begin taking Cardui to-day. You won't regret it. All druggists.

Write to: Chattanooga Medicine Co., Ladies' Remedy Dept., Chattanooga, Tenn., for full particulars on your card and 64-page book, "Secret Treatment for Women," in plain wrapper. No. 125

ALAMOGORDO WILL GET CHEAP ELECTRIC CURRENT AT ONCE

(Special Correspondence to the Herald) Alamogordo, N. M., March 28.—Alamogordo, N. M., March 28.—Colonel Edison, who recently purchased the Alamogordo Power company, has just completed plans for the rebuilding of the entire plant. New and modern electrical machinery will replace the present steam plant, and when the improvements are completed, the company will be in position to furnish power at a substantially cheaper rate than is now charged.

On account of the almost prohibitive cost of current its use is confined almost entirely to light purposes. The most serious complaint is that the new plant will make possible a rate of three cents a kilowatt for current that is used for pumping.

City Ticket Announced.

Mayor J. H. McElae, Trustees Alonzo F. Buck, Jacob Snover, Charles F. Prince and George M. Towner, and Recorder John H. DeMier, all have announced that they will be candidates for re-election. Since the saloon struggle has been disposed of in a way that indicates a complete victory for the board of trustees, it is likely that the people will return the present officers by a large majority. In fact, there has been no organized effort to put another ticket into the field.

Some Fruit Killed.

The best reports upon the condition of the fruit crop in the valley are that it appears to be certain that some of the fruit in and around Alamogordo was killed by the cold snap last week but no accurate report can be made at some weeks yet. If no more cold follows, there will be a pretty fair crop of fruit to gather.

Idaho Man Buys Ranch.

W. R. Prestie, who recently came to Alamogordo from the state of Idaho, has bought the relinquishment and the improvements on Mrs. J. C. Dunn's desert claim, northwest of town. The price paid was not made public.

Mr. Prevette came to Alamogordo prospecting about two weeks ago. He looked over the place and saw that it was a good one. Then he went to look over some of the other districts which have been so widely advertised. He returned to Alamogordo and staked his faith on the future growth of this valley. But he will not merely wait for the valley to grow—he will work to help make the valley grow.

Otero county proposed to refund \$10,000 in outstanding county bonds. The bonds are divided into two issues, one of 2,500 and the other of \$7,500. The bonds now draw 6 per cent interest, and since they can be placed at 4 1/2 per cent interest, thus effecting a saving of \$150 a year in interest charges, it is supposed to reform them. As the state must bear the expense of refunding, the county commissioners will insist on the refund.

A campaign for an earlier season of spraying has been started at Cloudcroft and has received much attention. It will be put on early, and many who have been coming to Cloudcroft in June state that they will come this year in May.

The Business Men's club of Tularosa has inaugurated a publicity campaign to acquaint prospective settlers with some of the many advantages of settling in that community.

MELROSE BECOMING IMPORTANT MARKET FOR EGG DEALERS

Melrose, N. M., March 28.—Melrose farmers are selling from 125 to 150 cases of eggs per week and most of these are shipped to the western part of the state, El Paso and Denver markets, where there is a splendid demand for eggs from the Melrose country. Considering that large quantities of eggs are consumed at home it is quite evident that Melrose is a center for egg production as well as dairy products.

Approximately 900 dozen eggs were brought to Melrose the last day of February. This was almost 11,000 eggs; pretty good business for one day, although there have been better days since. And, too, hundreds of eggs are being "set" in incubators and under hens, thus materially lessening the visible supply.

That interest is growing in the poultry industry is evidenced by the fact of much thoroughbred stock being shipped in and incubators being taken to the place of the sitting hen to hatch early chickens for the market at fancy prices.

The country around McAlister post office, 25 miles northwest of Melrose, which is the recognized wheat growing section of eastern New Mexico, has a larger acreage this year than ever before, both of fall and spring wheat, and the crop is showing up well with the best growing conditions ever before known in this section. A record yield is expected for this season.

Approximately 20 cars of wheat was grown in this section last year, ten cars of which was sold and shipped from Melrose, the balance being distributed in one and two car lots from near-by towns.

The McAlister community is also a heavy cream producing center and the dairy industry is extending rapidly.

Demand For Land Increases.

The demand for eastern New Mexico land has shown a remarkable increase during the past 60 days. Indication throughout the country of increased prosperity among farmers and stockmen as well as dairymen is having this effect on the outside world according to those who are in a position to know.

FORT SUMNER PROPOSES TO DO SOME REFORMING

The Blue Goose Must Build a Fence in Front of itself and Keep Off the Street.

(Special Correspondence to the Herald) Fort Sumner, N. M., March 28.—The Fort Sumner Commercial club has undertaken to do a little reforming and has appointed a special reform committee. This committee among other things is instructed to break up a gang of lawless youths who linger late on the street and around the saloon, making night nuisances. It is charged with the duty of keeping inhabitants of the "Blue Goose" resort off the streets, to have a fence built in front of said Goose and to keep minors from frequenting it.

An attempt was made early Wednesday morning to burn a small two-room frame house owned by Mrs. M. A. Rooney on Sixth street, and occupied by a man named Lowhorne, who was asleep in the house at the time. Lowhorne says he heard steps outside and soon after saw a flame. The blaze had been started with coal oil.

Yess farmers are interested in the result of extensive experimental planting in that section of the government's new drought resisting forage plant, feterita, which has been done in that section this spring.

FROST DOES DAMAGE IN HILLSBORO DISTRICT

(Special Correspondence to the Herald) Hillsboro, N. M., March 28.—Reports coming in to Hillsboro from the small orchards hereabouts state that the frosts of the past few nights

SERVICE AND SOLIDITY

The Banking Requisites
